QUARTERLY REGIONAL LABOUR MARKET  
UPDATE FOR DECEMBER 2006

## TASMAN/NELSON/MARLBOROUGH/WEST COAST

### QUARTERLY REGIONAL LABOUR MARKET UPDATE FOR DECEMBER 2006

#### EXECUTIVE SUMMARY

The labour force participation rate in Tasman/Nelson/Marlborough/West Coast stood at 68.1% during the year to December 2006 down from 69.3% the year before. In comparison, the national average participation rate was 68.4% for the year to December 2006.

The unemployment rate in Tasman/Nelson/Marlborough/West Coast increased to 3.2% for the year to December 2006 (national average: 3.8%) from 2.7% in the year to December 2005.

There were 1,018 working aged people receiving unemployment benefits from Work and Income in the Tasman/Nelson/Marlborough/West Coast region at the end of December 2006.

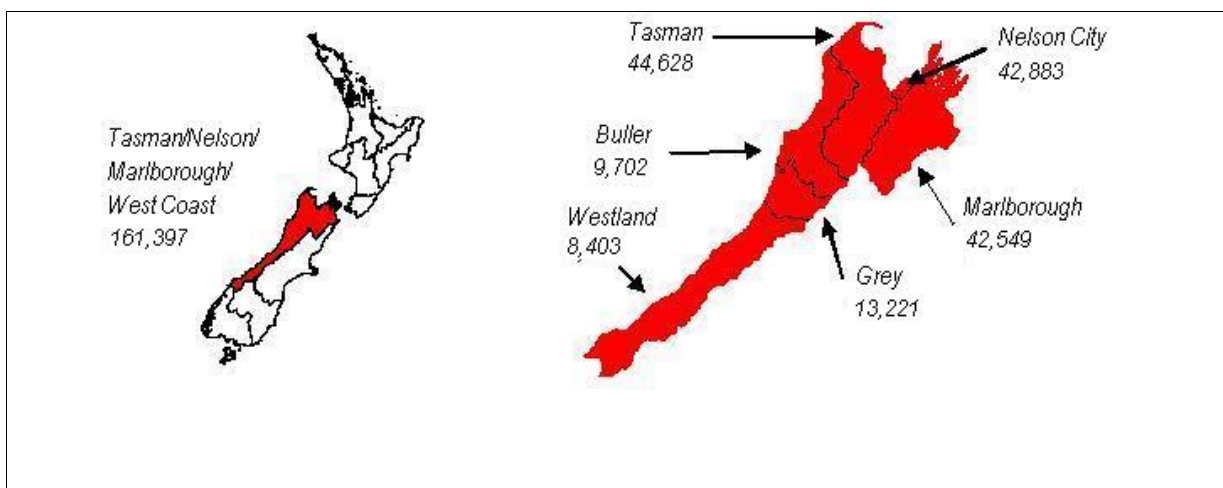

Advertised vacancies in Tasman/Nelson/Marlborough/West Coast declined by 3.8% in the year to December 2006, compared with a fall of 8.0% at the national level.

The data presented in this report is by regional council boundaries. This the first time some of this information has been available using regional council boundaries.

#### BACKGROUND

This report includes information relating to the area covered by the Tasman/Nelson/Marlborough/West Coast region as shown in Box 1.

#### Box 1: Map and population of Tasman/Nelson/Marlborough/West Coast for March 2006

Source: Population Census 2006, Statistics New Zealand

This report is a quarterly update of current labour market conditions in the Tasman/Nelson/Marlborough/West Coast region. The sources of statistics are the Statistics New Zealand Household Labour Force Survey (HLFS), Ministry of Social Development (MSD) and the Department of Labour Job Vacancy Monitor (JVM). To counter the effects of seasonality and low sample size when making comparisons over time, the figures presented are averages for the year up to the quarter indicated, unless otherwise stated.

**Table 1: Key labour market data for the Tasman/Nelson/Marlborough/West Coast region**

<i>HLFS Indicator</i>	<i>Tasman/Nelson/Marlborough/West Coast</i>		<i>New Zealand</i>	
	year to December 2005	year to December 2006	year to December 2005	year to December 2006
Participation rate, ann ave	69.3%	68.1%	67.8%	68.4%
Employment rate, ann ave	67.4%	65.9%	65.3%	65.8%

In the year to December 2006 the working-age population in the Tasman/Nelson/Marlborough/West Coast region was 135,300. The labour force participation rate was 68.1% while 92,100 people were in the labour force and 43,200 people were 'not in the labour force'. Of those people who were in the labour force, 3.2%, or 2,900 were unemployed and 89,200 were employed.

**Box 2: The labour market in Tasman/Nelson/Marlborough/West Coast for the year to December 2006**

Source: HLFS, Statistics New Zealand

Notes:

- Participation rate: proportion of the working-age population that is in the labour force.
- Employment rate: proportion of the working-age population that is employed.
- Unemployment rate: proportion of the labour force that is unemployed.

## POPULATION

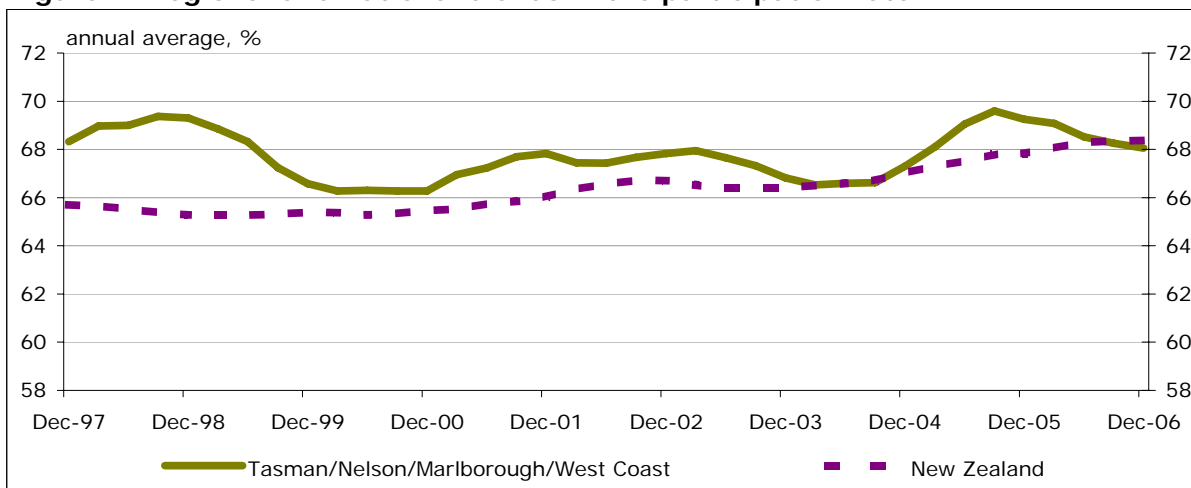

The working-age population in the Tasman/Nelson/Marlborough/West Coast region is estimated at 135,300 in the year to December 2006.

## LABOUR FORCE

The participation rate in Tasman/Nelson/Marlborough/West Coast stood at 68.1% during the year to December 2006 down from 69.3% the year before. In comparison, the national average participation rate was 68.4% for the year to December 2006.

The number of people in the labour force in the Tasman/Nelson/Marlborough/West Coast region is estimated to be 92,100 in the year to December 2006.

**Figure 1: Regional and national trends in the participation rate**

Source: HLFS, Statistics New Zealand

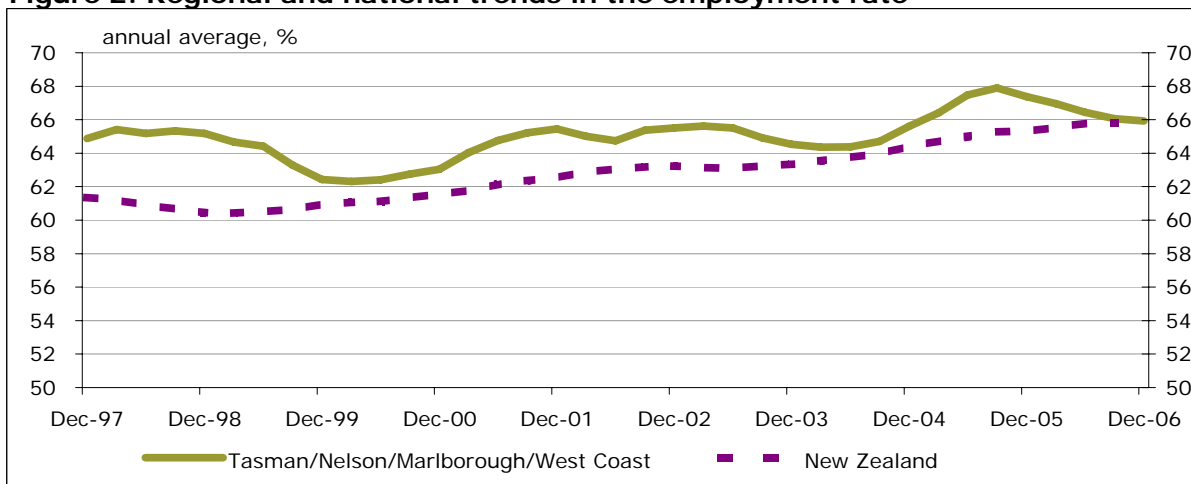

For a more detailed explanation of the labour force and the participation rate, go to the Department of Labour publication: workINSIGHT, issue 5, page 35, *The Labour Market Explained: The Labour Force Participation Rate* at [www.workINSIGHT.govt.nz](http://www.workINSIGHT.govt.nz).

## EMPLOYMENT

The employment rate (the proportion of the working-age population that is employed) in Tasman/Nelson/Marlborough/West Coast stood at 65.9% during the year to December 2006 down from 67.4% the year before. In comparison, the national average employment rate was 65.8%.

Employment in the Tasman/Nelson/Marlborough/West Coast region was 89,200 in the year to December 2006.

For a more detailed explanation of employment, go to the Department of Labour publication: workINSIGHT, issue 4, page 32, *The Labour Market Explained: Employment* at [www.workINSIGHT.govt.nz](http://www.workINSIGHT.govt.nz).

## UNEMPLOYMENT

The region's unemployment rate increased to 3.2% in the year to December 2006, from 2.7% the year before. In comparison, the national average unemployment rate was 3.8% for the year to December 2006.

The number of unemployed people in the region (as measured by the official statistics) is estimated at 2,900 for the year to December 2006.

**Figure 3: Regional and national trends in the unemployment rate**

Source: HLFS, Statistics New Zealand

The Household Labour Force Survey provides an estimate of all persons in the working-age population who during a particular week were without a paid job, available for work and had either actively sought work in the previous four weeks, or had a new job to start within four weeks of the survey week. These numbers will not align exactly with numbers receiving an income tested benefit such as Unemployment Benefit (see next page). There are a range of reasons for this. For example, recipients of income tested benefits can be employed part time up to specified income limits, whereas a respondent to the Household Labour Force Survey must have worked less than an hour during the week being surveyed to count as officially unemployed.

## UNEMPLOYMENT BENEFITS

The Ministry of Social Development has recently begun to make information on numbers receiving social security benefits available for Territorial Local Authorities. This information also supports display by Regional Council area, the same geographic basis on which other information in this report has been displayed. It will be some time yet before this is available as an annual time-series, so comparisons over time are provided for New Zealand as a whole.

There were 1,018 working aged people receiving unemployment benefits from Work and Income in the Tasman/Nelson/Marlborough/West Coast region at the end of December 2006. Their characteristics are shown in the next table.

**Table 2: Working aged unemployment benefit recipients (aged 18-64) in the Tasman/Nelson/Marlborough/West Coast region and nationally at the end of December**

	Region		New Zealand		Region's share of New Zealand (%)
	Share (%)	Number	Share (%)	Number	
Male	66.3	675	65.1	25,256	2.7
Female	33.7	343	34.9	13,540	2.5
Maori	16.0	163	36.5	14,161	1.2
Pacific People	0.0	0	8.3	3,220	0.0
18-24 years	22.4	228	24.7	9,583	2.4
25-39 years	21.3	217	33.0	12,803	1.7
40-54 years	23.5	239	22.1	8,574	2.8
55-64 years	32.8	334	20.2	7,837	4.3
<b>Total</b>		<b>1,018</b>		<b>38,796</b>	<b>2.6</b>

Source: MSD

These values occur against a backdrop of significant reductions in the number of current unemployment benefits over time at the national level.

**Figure 4: Clients receiving Unemployment Benefits for the whole of New Zealand, December 2002 - December 2006**

Source: MSD

Notes: Other includes not specified. Values for the end of the December quarter.

## JOB VACANCY TRENDS

The Job Vacancy Monitor (JVM) is a monthly analysis of job advertisements in selected editions of 25 major newspapers around New Zealand and three websites advertising IT vacancies. Over time, JVM informs us about the tightness of the labour market.

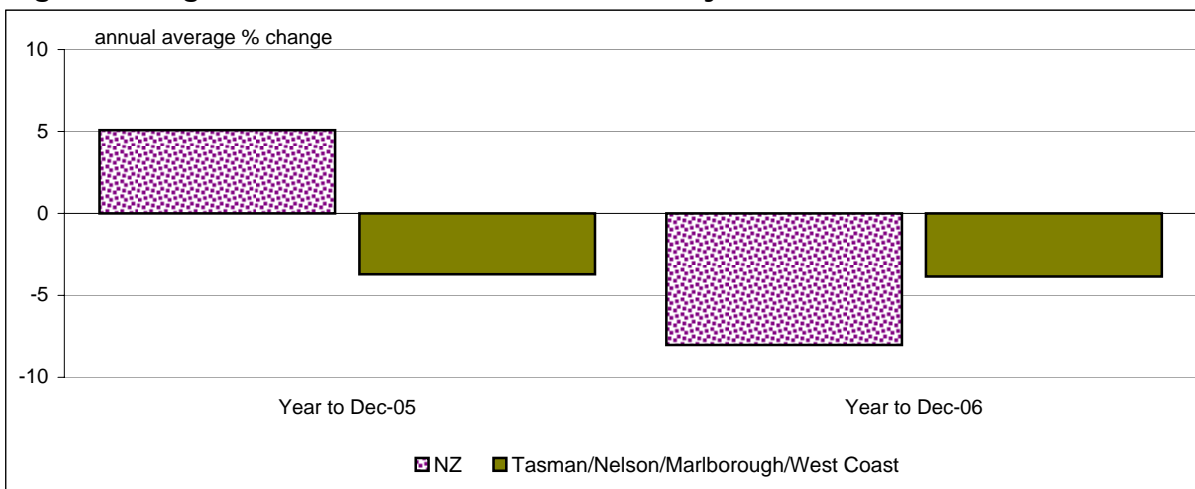

Advertised vacancies in Tasman/Nelson/Marlborough/West Coast declined by 3.8% in the year to December 2006, compared with a fall of 8.0% at the national level.

Advertisements for highly skilled (legal/admin/managers & professionals) occupations in Tasman/Nelson/Marlborough/West Coast declined by 7.1% in the year to December 2006.

Advertisements for skilled (ass.profs/tech & trades workers) occupations in Tasman/Nelson/Marlborough/West Coast declined by 8.4% in the year to December 2006.

Advertisements for semi-skilled / elementary (clerks, serv/sales workers, agr/fish workers, plant /mach operators & elementary) occupations in Tasman/Nelson/Marlborough/West Coast declined by 1.8% in the year to December 2006.

**Figure 5: Regional and national trends in vacancy counts**

Source: Job Vacancy Monitor, Department of Labour

**Figure 6: Regional trends in vacancy counts in the year to December 2006**

Source: Job Vacancy Monitor, Department of Labour

Note: Skill categories (highly skilled, skilled and elementary/semi) are averages of the occupation groups shown to the left.

For a more detailed labour market outlook for New Zealand as a whole, go to the Department of Labour's *Labour Market Outlook Report* at <http://www.dol.govt.nz/publications/lmr/lmr-labour-market-outlook.asp>.

For more detailed results from the Job Vacancy Monitor, go to the Department of Labour's *Job Vacancy Monitoring Reports* at <http://www.dol.govt.nz/publications/jvm/job-ad-monthly-report.asp>.

## High Vacancy Occupations

Below is a list of occupations from the JVM that have the highest number of vacancies (high vacancy occupations), and those occupations that have shown the highest growth in advertised vacancies in terms of percentage change (top percentage growth occupations) and numerical change (top numeric growth occupations) in Tasman/Nelson/Marlborough/West Coast.

The number of vacancies is measured as the total number of vacancies advertised in the twelve months to December 2006. The growth in vacancies compares the number of advertised vacancies in the 12 months to December 2006 with the previous 12 months. Percentage growth figures are only included if at least 24 vacancies occurred in the year to December 2005.

**Table 3: Tasman/Nelson/Marlborough/West Coast high vacancy occupations, December 2006**

Occupation group	Vacancies
1 Sales Assistant	223
2 Cleaner	198
3 Care Giver	144
4 General Clerk	126
5 Waiter	121
6 Fruit Grower, Worker	94
7 Chef	86
8 Information Clerk and Other Receptionist	81
9 General Labourer	78
10 Registered Nurse	72

**Table 4: Tasman/Nelson/Marlborough/West Coast, top percentage growth occupations, December 2006**

Occupation group	Vacancies
1 Secretary	138%
2 Machinery Mechanic	56%
3 Information Clerk and Other Receptionist	42%
4 University and Higher Education Lecturer and/or Tutor	32%
5 Cook	26%
6 General Clerk	21%
7 General Labourer	20%
8 Kitchenhand	18%
9 Fruit Grower, Worker	16%
10 Builder's Labourer	16%

**Table 5: Tasman/Nelson/Marlborough/West Coast top numeric growth occupations, December 2006**

Occupation group	Vacancies
1 Secretary	33
2 Information Clerk and Other Receptionist	24
3 General Clerk	22
4 Fork-Lift Operator	20
5 Machinery Mechanic	18
6 Draughting Technician	15
7 Timber Processing Machine Operator	15
8 Cook	14
9 Fruit Grower, Worker	13
10 General Labourer	13

## GLOSSARY

**Working-age population:** population aged 15 years and over.

**Labour force:** number of people who are either in work or are available and actively seeking work (that is, employed or unemployed as defined below).

**Employment:** number of people in work of one hour or more per week.

**Unemployment:** number of people who are not in work, but who are available for and actively seeking work.

**Not in the labour force:** number of people who are not in work and are either not available or not actively seeking work (that is, they are not employed and not unemployed). This includes for example, retired people, students and people at home with children.

**Labour force participation rate:** proportion of the working-age population that is in the labour force.

**Unemployment rate:** proportion of the labour force that is unemployed.

**Employment rate:** proportion of the working-age population that is employed.

**Job Vacancy Count:** a monthly count of job advertisements in selected editions of 25 major newspapers around New Zealand and three websites advertising IT vacancies, published by Department of Labour (<http://www.dol.govt.nz/publications/jvm/job-ad-monthly-report.asp>).

**Highly skilled workers:** legislators, administrators and managers, and professionals.

**Skilled workers:** technicians and associate professionals, and trades workers.

**Semi-skilled/elementary:** clerks, services/sales workers, plant/machinery workers, and elementary workers.

**Annual average:** the average for a whole year (eg year to December 2006).

**Annual average percentage change:** the percentage change between the average for a whole year (eg the year to December 2006) and the previous year (eg the year to December 2005). Unless stated, all growth rates are annual average percentage changes.

## LINKS TO OTHER LABOUR MARKET REPORTS

**Skills in the labour market:** summarises quarterly information on skill shortages, primarily focused on the Quarterly Survey of Business Opinion (QSBO) from the New Zealand Institute of Economic Research (NZIER) and the Job Vacancy Monitor (JVM) from the Department of Labour (<http://www.dol.govt.nz/publications/lmr/lmr-skills.asp>).

**Labour market outlook:** provides an outlook for the labour market over the next two years. The forecasts are detailed in a table and accompanied by descriptive analysis and a table of comparative forecasts is presented in an Appendix (<http://www.dol.govt.nz/publications/lmr/lmr-labour-market-outlook.asp>).

**Employment/unemployment:** a report that informs about the results from the latest Household Labour Force Survey released by Statistics New Zealand (<http://www.dol.govt.nz/publications/lmr/lmr-hlfs.asp>).

**Wage growth:** a report that examines the wage growth measures for the latest quarter from the Labour Cost Index (LCI) and Quarterly Employment Survey (QES) released by Statistics New Zealand. A technical note and data tables are included in the appendices (<http://www.dol.govt.nz/publications/lmr/lmr-qes-lci.asp>).

**Maori labour market outcomes:** a 6-monthly update focusing on changes in the past six years and prospects for the next two years. Data are from the quarterly Household Labour Force Survey (HLFS) from Statistics New Zealand amongst others. (<http://www.dol.govt.nz/publications/lmr/lmr-maori-outcomes.asp>).
